Presentation

Product & Project Manager with 4+ years of experience in developing design-oriented and complex products. I manage the end-to-end product lifecycle, coordinating R&D teams and cross-functional departments to lead 5 simultaneous projects from initial concept to market launch and lifecycle maintenance. After the studies in **Product & Design Management**, I'm currently pursuing a degree in **Business Administration and Management** to further enhance strategic decision-making and align product innovation & development with corporate business targets.
